

QUADRA™ SEATING SYSTEM

PRODUCT DATA

QUADRA™ SEATING SYSTEM

PRODUCT DATA

The **Quadra Seating System** is a minimalist modular family comprised of seating, tables and planters. Constructed of TENSL Ultra High Performance Concrete (UHPC), an exceptionally durable material, Quadra modules in three sizes can be used in multiple orientations and combined in numerous ways. They're also highly configurable and can incorporate different inset materials: FSC® Recycled reclaimed Teak slats, powdercoated aluminum, or TENSL UHPC for use as seats or tables, or planter liners. Simple in form and functionality, this adaptable group offers cohesive design flexibility—think of the line as building blocks for shaping pedestrian-friendly circulation paths, dividing space, and creating site-specific gathering areas.

MATERIAL & CONSTRUCTION DETAILS

INSTALLATION & MAINTENANCE

CONSTRUCTION	PLANTER OPTIONS	INSTALLATION
<ul style="list-style-type: none"> Quadra modules are cast of TENSL Ultra High Performance Concrete (UHPC) and have an intrinsic UHPC finish in Natural color. TENSL surfaces are protected by a hydrophobic treatment. Base is cast aluminum with a Slate Texture powdercoat finish. Slight variations in color and surface texture can occur due to the nature of the TENSL manufacturing process. 	<ul style="list-style-type: none"> Planter liners are molded polyethylene. All liners are available with or without drainage holes. 17" planter capacity is 4.1 gallons/15.6 liters; 48" planter capacity is 16.3 gallons/61.7 liters. 72" Quadra modules specified with planters have a 17" planter insert and 55" seating surface (as shown on page 5). 	<ul style="list-style-type: none"> Quadra modules can be freestanding or surface mounted. Surface mount models include stainless steel mounting hardware. A crane or other equipment appropriate for moving a 164-416 lb. object is required.
CONFIGURATIONS	SEAT INSET OPTIONS	MAINTENANCE
<ul style="list-style-type: none"> Quadra modules can be configured for use as seating, tables, or planters. Quadra modules are available in 17" 49", and 72" lengths. Quadra modules can be specified with the aperture in the casting facing front to back for use as seating or tables. Quadra modules can also be specified with the aperture oriented top to bottom, in which case a variety of materials, or a planter liner, can be inset into the top opening to create distinctive seating, tables and planters. 	<ul style="list-style-type: none"> Wood insets have FSC® Recycled reclaimed Teak hardwood slats and a natural oiled finish. (FSC License Code: FSC-C004453). TENSL UHPC insets are available with or without a surface pattern. Aluminum insets have a powdercoat finish. See the Forms+Surfaces Powdercoat Chart for details. Custom RAL colors are available for an upcharge. All Forms+Surfaces powdercoat colors have been formulated to be ultra-durable for improved long-term wear and resistance to weathering. Our powdercoat colors are also anti-graffiti, allowing marks from paint, permanent markers, and dirt to be easily removed. Due to the inherent nature of metal castings, gloss powdercoats are not offered for cast components. 	<ul style="list-style-type: none"> Metal and TENSL UHPC surfaces can be cleaned as needed using a soft cloth or brush with warm water and a mild detergent. Surfaces should be thoroughly rinsed and allowed to dry. Avoid abrasive cleaners. FSC® Recycled reclaimed Teak hardwood slats can be maintained by re-oiling as needed with linseed oil. Avoid abrasive cleaners and spray polishes.

QUADRA™ SEATING SYSTEM

PRODUCT DATA

ENVIRONMENTAL CONSIDERATIONS

- Please refer to the Quadra Seating System Environmental Data Sheet for detailed environmental impact information.
- Quadra modules are composed primarily of natural materials local to manufacturing.
- All Quadra modules use a low energy, resource efficient manufacturing and curing process.
- All Quadra components disassemble at end of life and are fully recyclable.
- All Quadra wood is FSC® Recycled reclaimed Teak hardwood.
- Low maintenance and extremely long service life.
- Powdercoat finishes are no- or low-VOC, depending on color.
- Manufactured in the USA.

PRODUCT OPTIONS

The following options are available for an upcharge:

Custom RAL powdercoat color

LEAD TIME: Please contact us to discuss your specific timing requirements.

PRICING: Please contact us at **800.451.0410** or **sales@forms-surfaces.com**. At Forms+Surfaces, we design, manufacture and sell our products directly to you. Our sales team is available to assist you with questions about our products, requests for quotes, and orders. Territory Managers are located worldwide to assist with the front-end specification and quoting process, and our in-house Project Sales Coordinators follow your project through from the time you place an order to shipment.

TO ORDER SPECIFY: Quantity, model, powdercoat color for frame, and freestanding or surface mount. Quote/Order Forms are available on our website to lead you through the specification process in a simple checkbox format.

NOTE: Because different computers, monitors, and printers render colors and textures differently, actual finishes may vary from those shown here.
